

# Avesta Background Review & Vetting Program

Hiring competent and honest individuals for the EMS industry is as essential as the care you provide, but how do you make an informed hiring decision? Avesta's industry leading screening process provides you with a variety of options to ensure you find high-quality talent that fits with your team.

## Why Avesta?

### EXPERIENCE

With decades of experience in the EMS industry, Avesta uniquely understands the challenges your organization faces. Each of Avesta's talent management tools are backed by direct experience, as well as behavioral science insight and technology.

### AUTOMATION

Avesta has automated the background and reference check process in a secure, digital environment. We provide clients with a reliable and rapid method for contacting employment references and requesting background checks on prospective employees.

### INTEGRATION

Avesta's background check program seamlessly integrates with CandidateCare, allowing prescribed background screenings to be automatically requested as soon as the applicant completes the required release form. Screening results are reviewed by Avesta's trained staff, then securely posted in the applicant's CandidateCare profile.

## We offer a full suite of specialized services, including:

- Employee identity verification
- Credit report checks
- Criminal record checks
- Driving record reviews
- Employment verification
- Credentialing verification
- Sex offender searches
- Patriot Act reviews
- Worker's compensation reviews
- Office of the Inspector General (OIG) dataset exclusion list review
- System for Award Management (SAM) dataset exclusion list review
